

PRESS RELEASE | ANTWERP, BELGIUM - February 20, 2024

During the European Industry Summit: a business case for Europe in Antwerp under the auspices of the Belgian Presidency of the Council of the EU, Pierre Luzeau, CEO of Seqens joins 73 industry leaders spanning almost 20 industrial sectors to call for a European Industrial Deal and promote an innovative, resilient, performant, competitive and sustainable industry in Europe.

Since its creation 20 years ago, Seqens is strongly committed to investing in greener and more sustainable development and manufacturing capabilities all along the entire value chain and to providing essential ingredients to the Healthcare, Personal Care and Energy sectors.

This is why, alongside 73 industry leaders spanning almost 20 industrial sectors, Seqens calls the European Commission to *“put the Industrial Deal at the core of the new European Strategic Agenda for 2024-2029 and for a comprehensive action plan to elevate competitiveness as strategic priority and create the conditions for a stronger business case in Europe”*.

“Today with 73 other EU industry leaders and EU industrial organizations, I am proud to participate in an historical event and to call for an ambitious European Industrial Deal that can further value the efforts made by Seqens over the last 20 years to innovate and invest in its EU assets to offer greener, safer and more sustainable essential ingredients to strategic sectors such as the Healthcare, Personal Care and Energy industries.” confirms Pierre Luzeau.

About SEQENS:

SEQENS is a world leader in the development and production of active pharmaceutical ingredients, intermediates and specialty ingredients, with 16 production sites, 9 R&D centers and 3,300 employees on 3 continents.

An integrated player across the entire value chain - from raw materials to active ingredients and from R&D to industrialization - SEQENS offers a broad portfolio of active pharmaceutical ingredients, pharmaceutical intermediates and specialty ingredients, develops and industrializes the most complex molecules, and leverages its ability to innovate, develop and implement the best available technologies.

Driven by a culture of excellence and a strong entrepreneurial spirit, our employees are committed to providing our customers with the highest level of service and quality, while acting ethically in accordance with our environmental, social and governance program.
